**Lightweight** - Easy to tow, even behind utility vehicles.

**Durable** - Structural composite construction results in a dent-resistant, stronger, and more resilient design.

**Non-Conductive** - Panels are constructed out of fiberglass, foam, and/or honeycomb materials.

**Store Indoors or Out** - Panels are waterproof, UV resistant, and built to handle the elements.

**Easy to Maintain/Clean** - Pressure wash inside and out. Smooth surfaces are easy to clean.

**No Organic Materials** = NO Mold, NO Rot, NO Mildew!

**Precision Engineering** - All panels, cabinetry, and storage solutions are manufactured using CNC equipment for higher quality and industry-leading fit and finish.

**Thermal Advantage** - Paneled construction gives a higher insulated product that is easy to heat/cool at a lower cost.

**Easy to Graphic** - Smooth, seamless paneled construction provides improved aesthetics and easy graphic application. Panels are available in many color options.

**RF Transparent** - Composite panels allow for radio wave transparency.
