INTELLI-CORE Structural Composite Construction

## WHY CORE?

**The Most Waterproof**  
**The Most Durable**  
**The Best Insulation**  
**No Slip or Rot Floor**  
**INTELLI-CORE Panels**

**INTELLI-CORE STRUCTURAL COMPOSITE TECHNOLOGY** Numerous advantages over traditional construction methods result in a lighter, stronger, easier to use, and longer-lasting product which increases capability and productivity.

**Lightweight** – The lightest trailers in their class. Easy to tow, even behind utility vehicles.

**4 Mode HVAC** – 2 Gas and 2 Electric: Truma Combi w/ 12V/LP or 110V, Truma Vario w/ 12V/LP, Electric Fireplace (110V)

**Durable** – Structural composite construction results in a dent-resistant, stronger, and more resilient design.

**Non-Conductive** – Panels are constructed out of fiberglass, foam, and/or honeycomb materials.

**Store Indoors or Out** – Panels are waterproof, UV resistant, and built to handle the elements.

**Easy to Maintain/Clean** – Pressure wash inside and out. Smooth surfaces are easy to clean.

**No Organic Materials** = NO Mold, NO Rot, NO Mildew!

**Precision Engineering** – All panels, cabinetry, and storage solutions are manufactured using CNC equipment for higher quality and industry-leading fit and finish.

**Thermal Advantage** – Paneled construction gives a higher insulated product that is easy to heat/cool at a lower cost.

**Easy to Graphic** – Smooth, seamless paneled construction provides improved aesthetics and easy graphic application. Panels are available in many color options.

**RF Transparent** – Composite panels allow for radio wave transparency.

**Longer Life** – A CORE trailer utilizes manufacturing methods and materials that last longer reducing the frequency and need for replacement.

**Easy to Repair** – Damage is quickly and easily repaired at a lower cost.
